

WANTED

Your Inches!

Let us hustle your muscles

Lose all those extra inches the relaxing way.
How? Just flip this card over and discover the secret!

Eurowave is instant specific inch loss.

You take the part of your body that you don't like, and we make it disappear.

How it works, is it gently passes an electrical current through the muscle which stimulates it to contract and relax. The same as if you go to the gym. One 18 min. session is equivalent to 200 deep crunch sit-ups so it is very effective very quickly.

Lose up to 3 inches on your first visit.
